

**METHODS FOR TREATING AND PREVENTING CARDIAC ARRHYTHMIA**

**Abstract of the Disclosure**

5 This invention provides methods for treating a subject  
afflicted with atrial tachyarrhythmia and methods for  
inhibiting the onset of atrial tachyarrhythmia. This  
invention also provides methods for treating a subject  
afflicted with exercise-induced or stress-induced cardiac  
10 arrhythmia and methods for inhibiting the onset of exercise-  
induced or stress-induced cardiac arrhythmia.
